(e) Yes.

(f) The matter is under consideration,

MR. SPEAKER.—Now, I will take up the next item in the List of business.

### CALLING ATTENTION TO MATTERS OF URGENT PUBLIC IMPORTANCE

*re : Scarcity of Drinking Water in Villages under Jurisdiction of Chief Engineer MI & PH, North-Zone*

SRI G.B. SHANKAR RAO(Hirekerur).— I call the attention of the Minister for Rural Development and Panchayati Raj to the scarcity of drinking water in the villages coming under the jurisdiction of Chief Engineer, MI and PHE, North Zone.

SRI K. PRABHAKAR (Hon. Minister for Rural Development and Panchayat Raj).— Sir, The Chief Engineer, M.I. and PHE(North), Dharwad, has stated that in North Zone covering the eight districts of Belgaum, Bijapur, Dharwad, Uttara Kannada, Raichur, Bellary, Gulbarga and Bidar, 9632 Bore Wells were sunk upto the end of 15-3-1979, from the inception of the programme, out of which 7639 borewells were successful. Hand pumps have been fixed to 5862 bore wells and power pumps to 260 bore wells upto the end of February 1979. Thus, in all 6122 bore wells have been fitted with hand pumps/ power pumps in the North Zone. Thus 1517 bore wells have to be fitted with pumps, mainly hand pumps.

There were some difficulties in securing sufficient number of pump-sets at the lowest tendered rates. After fully considering all aspects, and in order to ensure that supplies are made available at the same rates, but from a larger number of suppliers, Government have issued necessary instructions to the Chief Engineer (North), Dharwad. The matter will be further pursued with a view to see that the installation of the remaining pumps is taken up and completed expeditiously.
